

Access Your Mail's Full Potential

Digital Mailing System with
IntelliLink® Technology
The DM550™ Series

Smart Technology

The DM550™ Digital Mailing Series is the latest mailstream innovation from Pitney Bowes that enables you to move all types of mail faster, while saving time and money. This system combines cutting-edge software with the latest operational enhancements to provide a consistently reliable, smooth mail processing operation. The unique IntelliLink® technology connects you to a full range of Canada Post services — right from your mail centre. Dynamic downloads mean your system stays current with minimal effort.

Make your mail an important communications tool by putting the power and reliability of the DM550™ Digital Mailing Series behind you, right in your office.

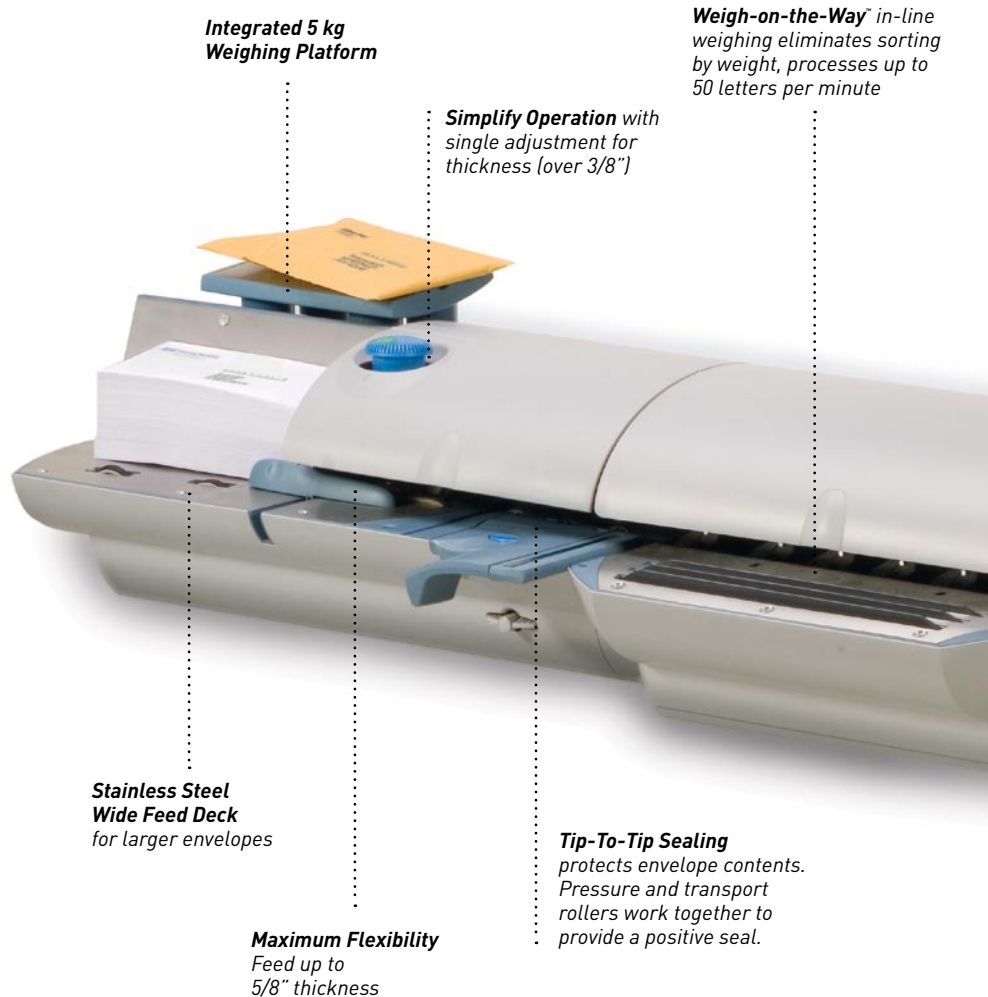

With IntelliLink® technology your DM Series™ mailing system is a portal to continuous improvement in mailstream efficiency.

IntelliLink® Technology Puts You in Control

The advanced IntelliLink® technology is a digital gateway that offers the user mastery of the mail process for greater productivity and quality control. This technology puts you in control of your operations and is easy to use, even for the novice mailer. As rates change, the IntelliLink® system downloads new Canada Post rates directly to your DM550™ Digital Mailing System.

IntelliLink® Control Centre – All the system's functions, including updates, are activated and controlled from a single point.

- > **Simplified Rating** – All rate selections are made through the control centre and update automatically. The weighing options include Canada Post Domestic and International rates along with optional basic carrier rates.
- > **Easy-To-Follow Prompts** – The IntelliLink® Control Centre provides clear instructions for system set-up and processing functions.
- > **Job Presets** – The system's memory can store up to 10 routine jobs for quick handling and greater productivity.
- > **IntelliLink® Package Services** – A shipping application that provides you with a diverse range of discounts from Canada Post. IntelliLink® Package Services automatically weighs, rates and records shipping details of each package – so you don't have to!

Integrated 5 kg Weighing Platform

Simplify Operation with single adjustment for thickness (over 3/8")

Weigh-on-the-Way® in-line weighing eliminates sorting by weight, processes up to 50 letters per minute

Stainless Steel Wide Feed Deck for larger envelopes

Maximum Flexibility Feed up to 5/8" thickness

Tip-To-Tip Sealing protects envelope contents. Pressure and transport rollers work together to provide a positive seal.

Ease of Use for Greater Productivity

The DM550™ Mailing System creates a smart, fast, and reliable production system. The equipment has been designed to provide multiple options and efficient features for stress-free handling and quiet operation. It's just the right resource for a busy office.

Optional Weigh-on-the-Way™ in-line Weighing – Using the latest technology, Weigh-on-the-Way™ simplifies processing by verifying the weight of a mailpiece allowing users to process mixed weigh automatically without weighing each piece to verify correct postage.

- > **Streamlined Processing** – Automatic feeding, sealing, and imprinting postage on up to 160 envelopes per minute, so the job gets done quickly and efficiently.
- > **Integrated Weighing Option** – Integrated 5kg weighing option saves space and enables you to easily process individual, oversized pieces with the correct postage.
- > **Differential Weighing** – Place mixed mail pieces on the scale and as you remove a piece from the stack, the correct postage is calculated.
- > **Versatile Feeding** – This system handles material up to 5/8" thick with sizes ranges, from postcards up to 10" x 13" flats.
- > **Self-Aligning Feed System** – Envelopes are fed straighter to protect the contents, ensure precise postage printing, and guard against wasted postage.

IntelliLink® Control Centre offers ease of use and access to services

Postage-By-Phone®
One-touch refills

Easy Access
to postage tapes

Drop-Down Deck
for complete access

Stacker Full Sensor
to eliminate overflow

Efficiency – 10cm (4") Stacking Capacity

Gain Accountability

The DM550™ Mailing System makes it easy to account for all your postage expenses.

- > **Standard Accounting Package** – Tracks and displays expenses for up to 25 accounts. A built-in keypad allows the full naming of accounts, and speed codes provide for quick selection.
- > **Expanded Accounting Options** – Increase your reporting capabilities with Pitney Bowes' Budget Manager and expand your accounts up to 1500. To maximize visibility and control, the DM Series™ Mailing System integrates with Business Manager, our PC-based accounting solution.

Drop-In Roll Tape – Self-adhesive roll tape is quick and easy to replace. The system dispenses cut-to-size tapes to eliminate waste.

Secure Sealing – Tip-to-tip sealing secures the contents of the envelope.

Drop-Down-Deck – Simplified access to the entire feed path ensures that your envelopes and contents are protected against damage.

Weighing Platform Options – Configure the best system by choosing from the 5 kg. Integrated Platform, or consider the three remote platform options with maximum capacities of 7kg, 12kg or 35kg.

Put the Power of Pitney Bowes Behind Each Mailing

Through your IntelliLink® technology you can always connect to the dedicated Pitney Bowes Server, which keeps you up-to-date with Canada Post. In addition, through your PC you connect to Pitney Bowes mail services that enhance your options for maximizing your mail operation.

- > **My Account** – Online access to your account information enables you to order supplies and request service.
